## MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is  
Child's Best Laxative

Happy mother! Even a young child knows the "right" way to "keep the bowels" open. A laxative to do this must be gentle, pleasant, and safe. It must not be harsh, irritating, or cause any harm to the stomach. It must be "California" or you will get a good example of the little bowels in action all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children on all boxes printed on little "Mother's" You must say "California" or you will get an imitation fig syrup.

Trusted custom deserves that anyone who copies the figures on a bottle of "California" be severely punished.

## "My Hands Trembled and I Could Not Sleep"

Mr. Thomas Honey, Brantford, Ont., writes:—

"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."

## Household Hints

Valuable Recipes for the Busy Housewife

### Oatmeal and Raisin Cookies

1 1/2 cups rolled oats, 1 egg,  
1/2 cup butter or shortening,  
1 cup sugar, 3 teaspoon cinnamon,  
1/2 teaspoon cloves, 1/2 teaspoon all  
spice,  
2 teaspoons baking powder,  
3/4 cup chopped Sun-Maid raisins,  
1/2 cup milk.

Put rolled oats through food chopper. Cream butter. Add sugar, well beaten egg, raisins and rolled oats. Mix thoroughly. Stir flour, baking powder, salt and spices together and add to egg mixture alternately with the milk. Drop from teaspoon on greased pan and bake in moderate oven 15 or 20 minutes. 1/2 cup chopped nuts may be added with the raisins if desired. This makes about 20 cookies.

### Granules

1 cup sugar, juice of 1 lemon,  
1 cup chopped Sun-Maid raisins.

Make enough for crum for one pie and cut as for cookies. Mix the sugar, chopped raisins and lemon juice together. Add a little flour if too juicy. Place a teaspoon of the mixture on each round of crust and fold over like turnover. Pinch edges down to prevent juice from flowing out. Place in shallow tin and bake until brown.

### Working a Word Hard

Frenchman Visiting Shipbuilding Plant in States Was Puzzled

We do not always realize how frequently we use the same sound to express entirely different meanings. The puzzled Frenchman who was making a visit to a Yankee shipbuilding plant realized it, however. He saw a man working at a piece of timber and asked him what he was making.

"A yard," was the laconic reply.

"Is it nearly finished?" the Frenchman asked.

"All but a yard," said the workman.

"Where do you get your timber?"

"From the yard."

"Where did the Frenchman gave up in despair. Youth's Companion.

### Power From Sun's Rays

New York College Graduate Demonstrates Miniature Engine

A miniature engine, whose power was generated by the sun's rays, was successfully demonstrated in the laboratory of the college of the city of New York by Bernard Grossman, a graduate.

A parabolic copper mirror caught and focused the rays upon a test tube of water, the heat causing steam, which in turn operated the tiny motor at a high rate of speed.

Grossman said his invention could be used in office buildings to provide light, heat and power, while the sun motor could be utilized to operate motor trucks. It will build a larger model to prove his theory.

### CATARRHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRHAL DEAFNESS PILLS are a constitutional remedy. Catarrhal Deafness is caused by the inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when healed, perfect hearing is the result. Unless the inflammation is destroyed, the hearing will be destroyed forever. HALL'S CATARRHAL DEAFNESS PILLS are the only pills that reach the mucous surface of the Eustachian tube, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulate free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

### Flour Mills Cannot Supply Demand

Large export orders of flour are being received by the Maritime Harbours and companies from the United Kingdom, to which more than 100,000 tons of flour have been shipped during the past few months. All mills are running to capacity, and practically all report that they are unable to supply the demands for low grade flours.

## Still Hope That Turk Peace Agreement Will Be Possible

Constantinople—Turkey's rejection of the Lausanne peace treaty, which was not unexpected, has been received calmly in both England and other circles in Constantinople. The latter persists that it is still possible to reach a middle ground agreement to ward peace.

The Ankara government will now proceed to draft a reply to the Allies, which will contain counter-proposals within the limitations established by the assembly's debates and Monday night's resolutions passed by the assembly, which demand strict adherence to the principles of the national pact on all matters affecting Turkey's absolute independence.

The Turkish Government has sent a note of protest to the allied high commissioners, here over Greece's refusal to repatriate Turkish prisoners under terms of the recent agreement.

London.—A dispatch to Reuters from Constantinople says the Nationalist Government seems to have won a complete victory on the Lausanne treaty situation in the assembly at Ankara. While the extremists were making objections to the Government proposals, the ministers organized their supporters and quelled the debate with a notion of confidence, which specifically endorsed Mustafa Kemal's attitude at Lausanne.

## BOLD POST OFFICE ROBBERY

PARCEL OF BANK MONEY AT WETASKIWIN MYSTERIOUSLY DISAPPEARS

Edmonton.—A special from Wetaskiwin, Alberta, says:

A bold robbery took place at the post office here when the door leading to the inner part of the building was forced open and a parcel of money removed.

The bundle, which contained some \$5,000, was in transit from Edmonton to the branch of the Royal Bank at Camrose, and was left on the ledge to be signed for by the mail clerk in the usual way. Another package of money in the safe, the cash in the tills and the stamps were not touched.

## Alberta Liquor Export

Export Except By Brewers and Distillers Forbidden After March 15

Ottawa.—The export of intoxicating liquors from the province of Alberta, except by brewers and distillers licensed by the Dominion, is forbidden after the fifteenth of the present month.

A proclamation containing the prohibition has been issued by the Governor-General. This proclamation is based on the Act passed last session which provided for the prohibition of export except by distillers and brewers, from a province into which import was prohibited and which by order-in-council required the prohibition of export.

## Turks Say Lausanne

### Treaty Inacceptable

Willing to Continue Negotiations Urge Certain Conditions

Constantinople.—Advices from Ankara state that the Turkish National Assembly has decided that the Lausanne treaty is unacceptable, being contrary to the National pact.

The Government, however, was authorized by an important majority to continue negotiations under certain conditions. The first of these provides for the settlement within a fixed period of the Mosul question. The second condition is that all financial, economic and administrative questions be settled in conformity with the complete independence of the Turkish nation. In the third place, the evacuation of all occupied territories peacefully after the signing of a peace is demanded.

## German Government

### Floating New Loan

Issue of \$50,000,000 Will Be In Foreign Currency

Berlin.—The law authorizing the issue of \$50,000,000 worth of treasury bills, which was given official publication, is believed to provide the first instance of a government floating an internal loan quoted only in denunciations of foreign money. The law signed by President Ebert makes no mention of the German mark, but says the treasury bills may be purchased in British, U.S., Swiss, Dutch, Swedish, Norwegian, Danish, Argentine, Spanish and Japanese currencies. French and Belgian francs are not included. The work of fixing the details and conditions surrounding issue of the bills is left to the discretion of the Ministry of Finance.

## Federal Government Will Assist In Solving Marketing Problems

Ottawa.—Whether the committee to investigate the marketing of agricultural products will inquire into the grain trade, or whether it should be done by a Royal commission, will be the subject of advice from the Department of Justice as a result of the initial meeting of the committee. Most of the western members favor the commission plan, and to it the Government is now quite accessible, but it does not wish to have history repeated—an inquiry started and then arrested by powers of inhibition.

If the Justice Department finds any way of advising a commission of inquiry without the hazard of an injunction process, that form will be followed. It is anticipated, however, that, as was the case with the Wheat Board, a certain amount of federal and provincial cooperation will be necessary to secure the fullest form of commission inquiry. If this is not possible, the committee will go into it, though the job is recognized as no onerous that it is not especially relished. Moreover, there are plenty of other subjects connecting with farm product marketing to be taken up.

With the cattle embargo being removed, livestock shippers are encountering the same difficulty in getting space for cattle as used to be encountered by farmers some years ago in securing cars for their grain. It is found that many of the companies have the holding of cargo space in the hands of brokers. There is no tribunal over the shipowners, which are bitingly can also space as they please. In view of this fact it is very probable that any combination or difficulty in securing cattle accommodation will induce the Government to put into the service of this trade a number of the ships of the Merchant Marine, which can be adapted without much difficulty.

## Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Colic, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ## EDITORIAL

There is probably no man engaged in the newspaper business in this province who is not acquainted with a man whose excuse for discontinuing his subscription is that he already "has more papers than he can read." It is only an excuse offered to ameliorate the presumed laxation of condition of the editor's feelings. It has no such effect, for in the first place an editor never worries over the loss of a subscriber except when he leaves the country without settling up arrears. But why not be truthful and say to the honest newsman just what you feel in your heart. Go into his den, ask him how much you owe, pay the delinquency and tell him frankly that you don't wish his disreputable, blackguard back any longer. Say to him in a sorrowful tone of voice that you deeply regret his inability to publish a newspaper worthy the name and advise him to sell his plant to some man with a thimbleful of brains and seek some occupation which does not require much wear and tear of mind. Do this and you can go some with the comforting assurance that the editor respects you for your candor and will cherish no hard feelings because you choose to borrow his paper instead of buying it.

## IN THE LEGISLATURE

Debate on the budget, and estimates, which were introduced on Monday by Premier Greenfield, has been in progress in the Legislature during the past week, and is being resumed again on Tuesday, when the members gather after the Easter recess.

On Monday, the house divided 36 to 12, against a resolution introduced by J. Deane of the opposition, "Resolved: Resolved that in the opinion of this House the Government of the Province should request the Government of the Dominion to oppose any legislation which may be introduced in the Parliament of Canada permitting oligarchies to be sold in this Dominion, on each legislation would be detrimental to the producers of dairy products in the Province of Alberta."

Night sessions have been in progress during the week, and will continue until the conclusion of the session. There is still considerable legislation to be considered, and the question of a plebiscite on the liquor situation is also to be dealt with.

Bills introduced during the week include one by Hon. Mr. Reid to amend the village act, one to amend the Municipal Districts Act and one by Mr. Johnston of Medicine Hat to amend the public libraries act which seeks to make it necessary for certain municipalities to set aside a sum amount each year for public library purposes.

## THE 1923 BUDGET

A Reduction in estimated expenditure to 1923 over the actual expenditure of 1922 of more than \$274,000, and the proposal for several new tax forms to increase revenue, are features of the 1923 budget which was submitted to the legislature on Monday by Premier Greenfield, who is also provincial treasurer. The reductions planned will result in the elimination of several government services, as follows:—Reduction in grants to primary, secondary schools and University of Alberta; Reduction in staff of school inspectors; Discontinuance of Normal

School at Edmonton; Closing of two more schools of agriculture; Reduction in staff of public health nurses; Big reduction in capital expenditure on roads, bridges and public buildings; Centralization and rearrangement of care of mental patients to bring about saving in capital expenditure.

## New Taxes

The new taxes proposed are as follows, and are expected to yield a considerable amount in new revenue:—Provincial tax on mineral leases; Tax on soft drinks; Tax on slot machines; Excession duties on ad valances.

Reductions in estimated expenditure in each department for 1923 over the actual expenditure of these departments for 1922 have also been made.

## Here and There

It is announced that a few days' extent of which can only be furnished, has been discovered seven miles from Grouse House, Clatsop, B.C.

The Yukon Territory is rapidly losing its inhabitants. In 1911 the population was 27,217, and in 1921 it had dwindled down to 4,157.

In an address to the Rotarians in Montreal last week, H. W. McCreary, president of the Canadian Pacific Railway, made a pointed statement to the effect that Canada needs more capital for its development and more men for the same purpose.

An old-time stampede will be held in Calgary, Alta., between July 5th and July 14th, 1923. The programme will, as usual, include calf roping, chicken, broncho busting, and fancy riding and riding, etc.

Resumption of direct steamship service is being being Montreal and the principal Norwegian ports, with the object of furthering the extension of trade between Canada and Norway, is announced by the Canadian Pacific Traffic agents for the Norwegian-American Line.

The Canadian Pacific Steamship "Magnum," recently brought over to Canada 400 men and women of the Hbridges—the first migration of young Hbridges farmers to Canada under the Ontario immigration scheme.

A bill has been introduced into the Chamber of Deputies, Paris, authorizing the Government to expend 7,500,000 francs on the Canadian travelling exhibition. At least twenty French towns will be visited by the train this summer.

As guests of President Beatty of the Canadian Pacific Railway, four boys members of the young farmers college of Great Britain will cross the Atlantic and tour the Eastern and Western provinces of Canada.

Canada's exports to the United States in 1922 were more than \$34,000,000 higher in value than exports of Canadian goods to the United States. The United Kingdom, Canada sold goods to the value of \$14,751,894, and to the United States \$140,115,247.

Before the war India imported 500,000,000 worth of commodities a year, of which Canada sent not more than \$10,000 worth. Last year her imports were \$800,000,000, of which Canada sent \$1,125,000, and it is now expected that there will be a further increase to \$2,500,000 and \$5,000,000 this year.

The Canadian Pacific Railway has arranged with a number of European countries for the emigration of farmers and domestic who are willing to come to Canada for employment on Canadian farms. The immigrants will be brought to Canada at the joint expense of their home governments and the railway company.

The first successful radio experiment in a moving long-distance railway train was recently carried out by the Canadian Pacific Railway train from Winnipeg to Vancouver. Mr. Raymond Wylie installed a receiving set in the drawing room of the fourth floor car, and the aerial was installed by the railway electrical department. The results were all that could be desired.

Seeing the train swaying as it passed over the rails, was a little funny, was the reason why the great Minister of Transport, Mr. Bennett, took a ride on a train. After he had returned to West London from Ottawa he told Mr. W. G. Green, the Canadian Pacific agent at the Union Station, that the swaying caused the sensation of seasickness, and that he was a little seasick, which did not go fast enough for him.

## CO-OPERATION

What you see in a comb of honey is a pound of perfect sweetness enclosed in a wax structure that is a triumph of architectural engineering.

You pay twenty-five or thirty cents for this, take it home, spread it on your bread to tickle your palate and help fill your physical desire, and—

What you don't see in this comb of honey is a little army of bees working harder than Trojans ever worked, sucking the ambrosia from thousands of clover blossoms.

Your pound of honey contains 7,500 grains of sugar. Each clover blossom provides about one-eighth of a grain, so this pound represents the sweet fruitage of 55,000 clover heads.

But the clever head is composed of about sixty florets or flower tubes. To extract the hidden sweet the bee must probe each of these. This means some sixty separate operations on each flower.

If one bee contracted to gather a pound of honey, that bee would have to explore 2,200,000 of these tiny tubes to secure the material. Allowing five seconds for each exploration and twelve hours to a day, it would take this bee some four hundred days to produce a pound.

And this would represent only the gathering of the honey, not the time required for building the wax case and storing the sweet stuff.

But there never yet was a hive

with just one bee to each comb. Nature commands pooled effort. Hundreds of bees to each comb makes a comparatively quick and easy operation of what would be an impossible task for one bee working alone.

So what we do not see in the comb of honey is the greatest of lessons in one of the greatest success-makers—Co-operation.

On every side nature flaunts this lesson in many a form.

The seed itself is nothing. Sun, soil and moisture must co-operate with the latent germ in order to produce plant life.

The most solid rock is only co-operating atoms.

The strongest man is weak alone. Only by working with others or winning others to work with him can he achieve worthwhile results.

The biggest business is bound for failure if its workers do not co-operate.

It is a machine whose parts do not work together. It may run for a while on its own momentum, but it is headed for the dump heap.

To co-operate is to join forces and something more. It is to join hearts as well as hands, and slip a little soul in the bargain.

Not to co-operate is to court loneliness, life rust and loss.

The A. B. C. of success is this—Be a Bee!

CO-OPERATE.

**CHEER UP CLUB NOTES**

At the regular meeting of the Club, it was decided to have the meetings every other Saturday after April 4th, on account of seeding.

When our referee chose a seat on the corner of the stove, we did not expect that the stove would lose its underpinning, which resulted in the downfall of the stove and the capsize of the teakettle.

Mr. and Mrs. A. T. Cowitz were visitors at the Club last Wednesday.

We see J. Bellamy go east quite often—wonder what the attraction is?

The Club gave an enjoyable dance on the 23rd, although the crowd was small all present reported a good time.

Eric and his fancy team of drivers suddenly parted company on the way home from the Club dance leaving Eric and his lady friend peacefully seated in the buggy. They only had a mile or so to walk in the wee hours of the morning.

Come now Alfred, chores are no excuse to stay home Sunday as the roads are reported to be in fine shape south.

**Here and There**

Vancouver as a grain port has gone over its head and is assured of achieving the 15,000,000 bushel objective set for the 1922-1923 crop year, according to statistics issued at the Vancouver Merchants Exchange.

A Canadian Pacific Railway train, over half a mile long, left Oshawa for New York recently. The train was composed of 22 flat cars, each carrying from four to six automobiles, and was the first solid train to leave Oshawa for New York.

Making the heaviest loading since the big crop year of 1915, grain loaded on the western lines of the Canadian Pacific Railway from September 1st, 1922, to March 7th, 1923, inclusive, totalled 218,545 cars. This is 16,000 more cars than were loaded during the corresponding season of last year.

While in mid Pacific, the wireless operator of the Canadian Pacific Steamship "Empress of Russia" was in touch with the London wireless station in England, and received a number of news items. "The other waves were evidently carried across the North Pole, as we were on the other side of the world," said Captain A. J. Huston, commander of the liner.

An Owen Sound despatch which recently interviewed Canadian Pacific Railway officials in Toronto, urged the building of a line from Owen Sound, through Newford and on to Collingwood and then on to a point on the Sudbury line near Godswater. The officials are reported to have been interested by the suggestions made by the delegation.

Captain A. J. Huston, R.N.R., of the Canadian Pacific Steamer "Empress of Russia," has been awarded the Médaille d'Honneur du Voyageur de première classe by the French Government for the part taken by him as commander of the liner "Monteclair" in saving the crew of the French steamer "Main Tien," off the China coast.

There is a gold rush on in Ragou township, in northern Quebec, to Labrador and now to the San district. In fact, the whole northern district has immense areas of rock bearing more or less gold, and the question is whether the quantity is large enough to make a real rush. Gold mining will be one of Canada's greatest industries twenty-five years from now—"Mail & Empire."

Still another case of children travelling alone. Elmer Lann, five years old, and Roland Gallwell, seven years old, both living on St. Paul's street, Montreal, were missed by their parents who did not hear of them after the disappearance until notified by Canadian Pacific Railway officials that the children were in Quebec City, to which place they had begged a ride.

The inspection of cattle since the embargo removal was recently inspected by the Hon. W. P. Motherwell, Minister of Agriculture, in the C. P. R. stock yards, Montreal. They were also fed Ontario cattle from along the Canadian Pacific west of Toronto, with the exception of one car load of Western cattle, the latter being in the best condition despite the fact that they had had a 24 hours car run from North Bay. The minister expressed the opinion that the cattle being shipped were of the "just quality."

It has reminded for the Canadian Pacific experimental farm at Strathmore to demonstrate beyond the possible shadow of doubt that the intensive trench silo system of providing winter fodder for cattle in under favorable conditions, quite equal to the costly structures which have in the past been utilized and that the plan is in every sense excellent. This was proved to the satisfaction of a large party of agricultural and business men, who recently visited Strathmore as the guests of the Canadian Pacific Department of Natural Resources in

THE AMOUNT OF THAT CHEQUE**

We have made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER so we are able to offer that farm magazine together with our own weekly at the one price for both papers.

THE CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a vacuum-mop to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes experienced men in its readers. Many of these are short cut findings that are real money savers to farmers.

The offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is where you get the E.H. Heath Co. cheque or drop into our office the first time you are in town.

Large Area of Irrigated Land Will be Added this Spring

Water will be available in the spring on two of the irrigation projects in southern Alberta, namely the Lethbridge Northern and the United, according to the annual report of the Irrigation Council of the province of Alberta. Considerable work is now being done towards colonizing the arid lands in these districts. A total of 10,000 acres of land has been listed at prices ranging from \$15 to \$50 an acre. The council has a mailing list of 8,000 in its colonization work and has already received more than 400 inquiries so far. Twenty prospective settlers have been shown over the projects.

## INFLUENZA LEAVES THE BLOOD THIN

To Restore Full Health Tonic Treatment is Recommended

Probably the most treacherous trouble that afflicts the people of Canada during the winter months is influenza—or it grips as it is often called. The disease is treacherous, because often after the characteristic symptoms of the trouble have disappeared it leaves behind it a weakened and debilitated condition which makes the victim an easy prey to other troubles. All this is due to the fact that the attack of influenza has left the blood abnormally weak and thin. Weak blood means impaired digestion, a feeling of tiredness after slight exertion, and often a nervous headache. This condition will continue until the blood is restored to a rich, red, disease resisting condition. For the purpose of enriching and stimulating the blood no other medicine equals Dr. Williams' Pink Pills. These pills act directly upon the blood, and through the blood upon the nervous and in this way act as a restorative to the whole system. Thousands throughout Canada have proved the value of Dr. Williams' Pink Pills in cases of this kind, among them is Miss Ida M. Fraser, R.R. No. 2, Thessalon, Ont., who says: "I passed through a severe attack of influenza which left me pale, thin and weak. Indeed I was so weak I could scarcely stand upon my feet. The medicine I was taking in the hope of bringing back my health did not help me, and I was greatly discouraged. Finally I decided to try Dr. Williams' Pink Pills and from that time I had taken the first box my health began to improve. I used six boxes altogether, and found as a result that I was again strong and healthy, and I think that in cases of this kind they are worth their weight in gold."

If you have passed through an attack of influenza, your speediest way to regain full strength is through the fair use of Dr. Williams' Pink Pills. You can get these pills through any medicine dealer, or by mail at 20 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## HAD BAD PAINS IN HER HEART

## Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes: "I wish to say that I have been bothered very much with my heart and nerves. I doctored with two different doctors, but did not find much relief. I would have such bad pains in my heart at times, I had been almost afraid to move or breathe, and at night I could not sleep. If the pains in my heart were gone, my nerves would be so bad I could not lie still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made heart worse."

I had been suffering for nearly two years until one day I was talking to our druggist about the matter. He advised me to give Milburn's Heart and Nerve Pills a fair trial. I have now taken five boxes and am feeling so much better. I am able to do my own work, and can eat anything I wish. I cannot praise them enough."

U.S. the Largest Customer for Surplus Newspaper

Newspaper paper exported from Canada during January, 1923, amounted to 1,622,523 cwt., and was valued at \$8,138,822, slightly less than was exported in December. In January of last year the amount exported was 1,251,924 cwt. The United States was the largest customer by far for newspaper paper in January, taking 1,622,523 cwt.; New Zealand took 9,331 cwt.; and Australia 828 cwt. Smaller amounts were sent to British West India and South America. Australia was Canada's largest customer for food and writing paper, taking 288 cwt. out of a total of 720 cwt. The United Kingdom and Australia imported most of the 15,273 cwt. of writing paper exported in January. The United Kingdom took 5,764 cwt., and Australia 1,829 cwt. Newfoundland and Japan were the next best customers for wrapping paper.

## Postal Air Routes

Stefansson Predicts Mail Delivery in Arctic by Airplane

The post office department announced a short time ago that a regular mail service will be opened between Port McNeill, in Northern Alberta, and Aklayuk, on the delta of the Mackenzie River, the Canadian Arctic's newest post office and trading center. The mails will be carried by five or six days or less in sleds, and the postman will be two months in the wilderness each time he makes the trip. He will sleep under the canopy of heaven surrounded by his dogs. His dog will hunt and catch the walrus in a manner that Jack London made famous. But even this last bit of romantic human enterprise is threatened. Mr. Stefansson has lately mapped the Arctic with polar air routes which he says will open within a few years. So the world moves on—Winning Time.

## WARNING

Several complaints have been made  
to the Council during the past week,  
regarding the practice of boys shoot-  
ing within the Town limits. In one  
instance a bullet was either through  
carelessness or intentionally fired  
at a dwelling house, entering one of  
the rooms where the occupants of the  
house were sitting. Fortunately,  
however, no damage was done ex-  
cept to the property.

It may not be generally known that  
there is a By-Law which prohibits  
shooting within the limits of the  
Town of Didsbury. The Council has  
no desire, if it can be prevented, to  
take extreme measures to prevent  
shooting within the Town, but unless  
the offenders take this warning there  
will be no alternative but to proceed  
under the terms of the By-Law.

The Parents of boys who own rifles  
or other shotguns are requested to  
co-operate with the Council in put-  
ting a stop to the dangerous practice.

In future it will not be taken as  
an excuse that the offender was un-  
aware of the Town limits. These  
may be ascertained any time at the  
office of the Secretary-Treasurer. It  
is pointed out, however, that the land  
comprising the Butte and the Ex-  
hibition Grounds are within the  
Town limits.

## MY BOY

"My Boy." Jackie Coogan's latest  
starring vehicle for Associated Pict-  
National release, is coming to the  
Opera House on April 15th for an en-  
gagement of two days.

In this instance the little star has  
been given a better story than  
"Peck's Bad Boy," which broke  
theatre records all over the country,  
and "My Boy" is destined to become  
a country-wide hit.

The little genius plays the part of  
Jackie Blair, who lands at Ellis  
Island, an orphan alien. He manages  
to break through the immigration  
barriers, but has some strenuous ad-  
ventures in the land of the free. His  
irresistible personality, however, wins  
him friends on every hand and he  
has no difficulty finding a home.

## CHINESE JOSS SAFEGUARDS LINER

1. Continued action rest from their enter-  
prise. The other and offering.  
2. A. S. "Safeguards" should watch  
the other pictures were taken.  
In a little steel bound compartment  
forward a hundred Canton Chinese  
stand or squat in the stifling heat,  
which seems to draw through the  
walls in sticky beads, moisture from  
the sea without. The sickening smell  
of punk and burning Sandal wood  
pervades the heavy atmosphere, and  
the ear is tortured by the wall of  
musical instruments of red and  
string, and the monotonous tump-  
tump, tump of a skinny kum-kum on  
a native drum. The dim light is  
thrown by two long tallow candles  
which burn before and cast wav-  
ering rays upon a hideous Joss, the  
protectors of which is accen-  
tuated and exaggerated by the mov-  
ing shadows on its face. Before  
this Joss, which the cotton-garbed  
coolies adore in their silence, is a  
platter of fruit and chicken—  
a humble offering. But the food offer-  
ing does not suffice to win the good  
graces of this terrible and austere  
god, neither does the so-called music  
sufficiently influence it on behalf

of its subjects, therefore, that their  
wishes may be gratified and its evil  
designs be brought to confusion,  
costumed supplicants for its mercy  
dance before it, describing with  
painted paper streamers, long curves,  
dashes and abrupt swings, indicat-  
ing that before it can turn loose its  
wrath upon the ship in which they  
are about to sail, the god of the  
seas and winds must flow all the  
offensive avenues described.  
So, according to the belief of the  
Chinese members of their crew, are  
the Canadian Pacific "Express" ac-  
corded safe passage across the

Pacific. For forty years the Cana-  
dian Pacific Steamship Co. Ltd. have  
operated on the Pacific without any  
serious accident and practically no  
loss of life, and the Chinese are con-  
fident that this record has been  
achieved only by reason of their  
reverence of the evil gods. Respec-  
ful of the religious beliefs and  
fancies of all its passengers, the  
company allows the Orientals to  
practise their religious rites with all  
ceremony and the privileged pas-  
senger can watch the proceedings  
with amused and smiling but un-  
expressed disbelief.

## JUTLAND NEWS

Frank Fritz who was with his  
family during the winter is moving on  
his own place.

George Burns returned from Han-  
na on Tuesday last.

Mrs. Diebel of Calgary is visiting  
her brothers and sisters over Easter.

Mr. Moon will be pretty busy with  
his well-digger for a few days. He  
is drilling for Frank Diebel now after  
which he will move over to George  
Metzgar's.

We are glad to see some of our  
old neighbors returning to the fold.  
Mr. and Mrs. Bert Richardson and  
Mr. and Mrs. George Metzgar.

So it's hats off to the boys and  
girls of Jutland school for they have  
had the honor of lifting the diploma  
two years in succession. Now it's up  
to the parents to give them all the  
encouragement to enable them to lift  
it again this fall and if successful  
they will be entitled to a good send  
off.

Harry Richardson has left for Cal-  
gary where he hopes to get work.
